

## INTERESTING FACTS AND FIGURES ON THE COUNTY ASSESSMENT

### 50 PER CENT OF BIG FUND TO BE USED LOCALLY

At the meeting of the Mission Board of the Bracken Association of Baptists held in this city on Tuesday, that board decided to retain 50 per cent of the \$25,000 subscribed in this association in the recent big 75 Million Campaign for associational missionary work. It will not probably require this much money to carry on the missionary work in this association in the five years and the residue will be given the State Board of Missions.

Don't be taken in by so-called Graton or Victrola dealers offering you second-hand machines or machines of shoddy material. All modern Graton or Victrola machines are made with turntables set down in cabinet, not on top of cabinet, as some so-called dealers are showing. If you want modern machines we are the regular authorized Victor and Graton dealer.

### A HAPPY NEW YEAR TO YOU

The PUBLIC LEDGER, at the close of the good year 1919 and the beginning of the new year 1920, desires to express to its many friends its keen appreciation of their cordial support and to assure them that during the year just beginning the publishers and editors shall endeavor to give them the best possible in the way of local news.

We say "good year 1919" advisedly, for while the year has been one of turmoil and strife in our nation, it has been, in many respects, the best year in the long history of the PUBLIC LEDGER. Without a special effort of any sort our circulation has grown steadily until at present the paper's circulation is larger than at any time during the 27 continuous years of its publication.

At no time have we endeavored to publish a metropolitan newspaper, realizing that it would be folly for us to endeavor to compete with the large city dailies circulating in this district but we have tried our best to publish a local newspaper, fairly chronicling the happenings of the community. The people have appreciated our efforts and today there are more people in Maysville reading the PUBLIC LEDGER than any other newspaper published here. Because of our time of publication, the paper appeals to the city residents and our city circulation has almost doubled within the year, while our special morning edition appeals to our rural readers.

Despite the high cost of all material necessary to the publication of a newspaper, the PUBLIC LEDGER is the only Maysville newspaper that has maintained its price of one cent a copy and this has been appreciated by the public.

With our increased circulation, there has come, as a matter of course, a large increase in advertising business and we have enjoyed the best year in this line, the PUBLIC LEDGER has ever known.

For the year 1920 we promise our best efforts to deliver to you each day a local newspaper containing the news of the district we endeavor to cover. We are pleased with the year 1919 but not satisfied, and during the year 1920 hope to make many improvements that will make the PUBLIC LEDGER a better paper. We ask for your support and encouragement you have so generously given us during 1919.

To all who have helped us make 1919 successful, we extend our hearty thanks and for these same friends we wish a happy and very successful 1920.

### THE BUTTER OIL

AN UNUSUAL SHOW

"The Butter Oil" with DeWolf Hopper which was shown at the Washington last night was an unusual sort of play. As a musical show it would not be classed very high but as a comedy and as a play to teach life, it was unusually pleasing. The comedy was played by Hopper and his two daughters, who were excellent at comedy.

## HEALTH OFFICER TAKES STEPS TO CURB TYPHOID SPREAD

Six New Cases of Typhoid Fever in Past Three Days Causes Health Department to Take More Drastic Steps.

The spread of typhoid fever in Maysville within the past few days has been such as to cause some alarm among the health officials of the city and this morning Dr. Rice, County Health Officer, again issued orders to the Water Company to put enough chlorine in the city water that it can be tasted despite the many complaints that have been lodged by citizens at the terrible odor and taste from the water.

Dr. Rice stated this morning that during the month of December there have been 17 new cases of typhoid reported in the city and during the past three days physicians have reported six new cases which is large enough to cause some alarm. The new cases are: Owen Case, Forest avenue; Gordon Wood, Lexington street; Mrs. Rankin, Carmel street; son of Wiley Williams, L. & N. railway; daughter of Fielding Green, Fourth street and Mr. Elkins, West Second street.

The Health Officer states that he has plenty of typhoid vaccine which he will gladly give to any physician applying and he urges its free use. If the condition does not clear up within the week, the Health Board may be called together and asked to pass a resolution compelling members of families where there is a typhoid patient to be vaccinated immediately.

## PRICES CONTINUE LOW ON THE LOCAL TOBACCO MARKET

No Improvement in the Condition of the Market Is Seen and Warehouse Floors Are Almost Empty—Farmers Holding Back.

There was no improvement in condition of prices on the Maysville local market today and again a loud howl was heard from the growers who had small amounts of the weed on the floors to offer. From the very little tobacco that is being delivered, it appears that the farmers are waiting for some improvement in prices before they are going to offer their crops for sale.

Warehousemen are not talking much about the present slump except they say that the crop this year is unusually poor one and all admit that the withdrawal of the American Tobacco Company's buyers from the market has had much to do with the slump. The return of these buyers is expected daily and warehousemen say that when they do appear things will be quite normal again although growers must not expect to receive a high price for a low grade of the weed.

Household report as follows:

CHANDLER SIX  
Famous For Its Marvelous MotorChandler Leads Where  
Performance Counts

WHEREVER men ask much of their automobiles the Chandler dominates. In the mountain countries it performs as many cars with larger motors do not perform. Climbing steep grades with the sharpest turns on high, creeping up and up at six or seven miles an hour on high without a miss or a skip or a sign of effort, where others shift, the Chandler holds for its driver the thrill of really satisfactory motoring.

In country roads of mud or sand, and in the congested traffic of crowded city streets, this same power and this same flexibility show their qualities.

The Chandler leads the whole six-cylinder group so distinctly because it is such a good car and so fairly priced.

There's no better time than NOW to place your order.

## TIME IS THE TEST

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time. Maysville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney trouble is looking for.

Henry S. Gallenstein, blacksmith, 424 W. Third St., Maysville, says: "My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became well." (Statement given January 2, 1912.)

RESULTS THAT REMAIN  
Over four years later, or on November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. The benefit they gave me has been permanent."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Gallenstein had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## IN THE DAY'S NEWS

The only New York Surrogate to retire by reason of the age limit and not through death, disability, removal or defeat at the polls is Robert Ludlow Fowler, who quits the bench today on account of having reached the age limit of seventy years. The office of Surrogate in New York is a very old one. It was established more than a century ago—in 1917—and among the early Surrogates were many distinguished men. Judge Fowler was a well-known practicing lawyer when he was appointed Surrogate by Governor Dix. During his term of office he was decided thousands of motions and passed upon probate disputes in cases involving upwards of two billions of dollars.

Lodger Service—Efficiency.

## WHY, OH WHY?

Harp so much about averages—we could fill this space with ours and then you would know very little about the market.

What the seller wants is attention and full value for his tobacco, whether the crop is HIGH, MEDIUM or LOW GRADE.

Most growers in this territory are unfortunate with the crop this year, by having it short in weight and that, not the best in the world. Appreciating this fact, we expect as usual to give the same attention to all regardless of quality.

To find out who are making the SATISFACTORY SALES and having the SMALLEST REJECTIONS look around and see for yourself.

**MASON GETS MUCH  
OF THE U. S. MONEY  
SPENT IN STATE**

Government Spends Large Sum in Health Work in Kentucky—Mason County Gets Large Share.

Frankfort, Ky., December 31.—Fully \$30,000 annually has been spent in Kentucky by the United States Public Health Service in conducting three hospitals, a large number of traveling clinics and dispensaries for the eradication of trachoma.

The work has been under supervision of Dr. John McMullen. In his report to Governor Morrow on the State Board of Health, State Inspector and Examiner Henry F. Turner says:

"It is one of the finest pieces of sanitary work that has yet been done. Not one penny has been spent by the State Board of Health for this work, every dollar having been put up by the United States Public Health Service."

The report of Inspector Turner covers a period of four years from 1916 to 1919 and during the first two years of the report Inspector Turner says that the United States Public Health Service continued the survey of the Ohio River shed, covering practically the source of public water supply for Kentucky at an annual expense of between \$30,000 and \$50,000.

The International Health Board during the past four years, has furnished the State Board of Health with \$3,300 each year, and this money with a like amount from the State's appropriation, has been expended in Mason county for the conduct of the County Health Department. Maysville, the Mason County Health and Welfare League, put up a like sum. In addition to this, the United States Public Health Service has expended from \$3,000 to \$7,000 annually in co-operative demonstration work in Mason county.

During the four years 62,551 specimens were examined in the State Board laboratory. In commercial laboratories such examinations would cost \$2 each. During the same period 411 patients with rabies have been treated and this treatment would have cost the patients at least \$100 each if they had been treated elsewhere.

During the period 7,308 packages of diphtheria antitoxin were shipped from the offices of the State Board of Health, saving the purchasers \$14,516.

Through the cooperation with the Kentucky Tuberculosis Association and an insurance company the State Board of Health obtained the services of Miss Helen Williams as State supervisor of public health nursing, her salary from the State being \$1 a year.

Through activities of the Kentucky Tuberculosis Association and with the aid of the American Red Cross and the insurance company the State Board of Health has placed fifty-six public health nurses in the State at an average salary of \$125 a month, of which the State pays \$25.

The United States Public Health Service, under the Kahn-Chamberlain act, has appropriated to this State for the past year the sum of \$25,000 for the establishment of a bureau of venereal diseases.

After January 1 this amount will continue to be furnished to the State Board of Health only upon the condition that the General Assembly provide a like amount, dollar for dollar.

The United States Public Health Service has provided the State Board of Health, during a portion of the past year, with the service of Captain Harub, sanitary engineer, thus saving the State \$6,000.

**SOLDIERS' PAPER RECEIVED**

We beg to announce that the orchestra of the ENRICO FILIPINO SERENADERS, (Refined Instrumentalists) will render a very exceptional MUSICAL PROGRAM for the New Years Dance to be given by the Maysville Assembly at Neptune Hall.

We expect the attendance of your unsolicited patronage, as this isopitively the most exceptional music for any dance given,—being new to the American people,—so different from the ordinary orchestra and Jazz Band music,—so seldom heard in the United States. The press in the larger cities has said much about them and we are fortunate indeed, in securing their services.
